## KNOX HAILS SMASHING OF JAPAN'S LATEST THRUST TO RETAKE GUADALCANAL AS "MAJOR" BUT NOT DECISIVE VICTORY; EARLY EXPULSION OF ENEMY IS PREDICTED

"Only Safe Assumption is That They Will Come Back"—U. S. Battleships Play Major Part and "Contribute Materially" to Gigantic Japanese Losses

(By International News Service)

WASHINGTON, Nov. 17—Secretary of the Navy Knox today hailed as a "major" but not decisive victory the smashing of Japan's latest sea-borne thrust to retake Guadalcanal and added that the U. S. Pacific Fleet already is making preparations to crush any similar counter blow by the enemy.

"The only safe assumption is that they will come back," Knox said at his press conference. "That is exactly what we are making our plans for. By the measure of their losses it will be more difficult for them the next time."

Asked whether he thought American forces could again turn back any Japanese attack, Knox replied:

"Of course we will defeat them. We will lick them, but I don't say in what action or when."

PEARL HARBOR, Nov. 17—Early expulsion of all Japanese forces from bitterly contested Guadalcanal Island in the Solomons was predicted by Admiral Chester W. Nimitz today in the wake of America's latest and greatest naval victory in the Pacific.

As details of the engagement became known, with disclosure that United States battleships had played a major part and "contributed materially" to the gigantic Japanese losses, a feeling of utmost jubilation spread through Honolulu and there was warmest praise for Vice Admiral William F. Halsey, who commanded the American forces.

Admiral Nimitz himself was in a jovial mood when he summoned newspapermen to his cabin to tell the great story of how 23 Jap ships were sunk and seven damaged in the four-day sea battle.

### Congregational Supper Is Enjoyed; Special Features

A congregational supper was served last evening in Harriman Methodist Church by the Woman's Society of Christian Service and the Men's Fellowship.

The main speaker was the Rev. Wilis H. Boite, pastor of First Baptist Church. Mr. Johnson spoke also, he stressing the influence of such groups as the two sponsoring bodies on church life.

Vocal duets were given by Joan and Germit Marsh; group singing was enjoyed; and Doron Green and Roy Fry pleased with tricks of magic.

### THE WAR AT A GLANCE

(By International News Service)

The balance of naval power has shifted to the United States in the Southwest Pacific as a result of the third and greatest victory of an American task force over a huge Japanese invasion force, Washington circles believed today. Overshadowing the victories of the Coral Sea and Midway, the three-day battle utterly smashed the enemy drive on the American bases in the Solomons and severely crippled Nippon's seapower.

Twenty-three enemy warships and transports were destroyed in two brief night engagements, and seven warships were damaged. American planes played an important part in the fighting, but for the first time surface units of the two fleets came to grips.

The triumph was not without cost, for two American light cruisers and six destroyers were sunk in the running fights that drove the Japanese back from Guadalcanal Island.

Another Japanese disaster apparently was in the making as Gen. Douglas MacArthur transferred his headquarters to New Guinea and took command of the Allied drive to push the enemy invasion forces back into the sea. The steadily retreating Japanese have been forced back to within 16 air miles of their coastal base at Buna, and two Allied columns—Australians and Americans—were reported to be closing in rapidly on the withdrawing foe.

The smashing sea defeat has not relieved the Japanese threat in the Pacific, but military and naval circles in Washington were jubilant, for the enemy will require time to reorganize his battered forces, and meantime, it was indicated, the American force on Guadalcanal is strong enough to drive the foe from the island.

Allied forces were pushing ahead in Tunisia, although not yet in contact with the German-Italian landing parties at Tunis and Bizerte. But fighting French troops engaged the enemy while their Allies advanced in force.

RAF long range fighters from Malta hammered the airports at the two ports as the British-American columns drove steadily towards the front.

The Axis force in Libya was reported to have passed Benghazi, 400 miles from Tripoli, in its Libyan flight. The British Eighth Army was close behind, somewhere in the vicinity of Derna.

## ABSENTEEISM THIS YEAR COST WAR INDUSTRY ENOUGH TIME TO BUILD 5,000 FLYING "FORTS"

N. A. M. Health Consultant Reveals Terrific Loss in Man-Hours Due to Sickness and Accidents

By International News Service

BOSTON, Mass., Nov. 17—(INS)—Absenteeism this year will cost war industry 121,000,000 man-days, the equivalent of 1,000,000,000 in wages to war workers and enough time to build 5,000 Flying Fortresses at the present rate of production, Dr. Victor G. Heiser, medical consultant to the National Association of Manufacturers' Committee on Healthful Working Conditions, declared yesterday.

Dr. Heiser told the Round Table on Health in Industry, sponsored by the Associated Industries of Massachusetts, that this estimated loss in man-hours, due to sickness, accidents and other causes, "means a broad grin on the faces of Hitler, Mussolini and Hirohito—a grin which must be wiped off, and wiped off soon."

He pointed out that 121,000,000 man-days "in the right place" not only would mean 5,000 Flying Fortresses this year, but it would mean 10,000 of the huge bombers "when mass production gets into full swing; 21,000,000 Garand rifles, or 161,000,000 500-pound demolition shells.

Despite "industry's best efforts to forestall every possibility for accidents on the job," the N. A. M. medical

consultant said, "42,600 war production workers have been killed, either on or off the job, since Pearl Harbor." "Add the number injured," he said, "and the record is this: 11,000 war workers killed or injured on and off the job every day since December 7."

Fatigue and malnutrition contribute to the record, said Dr. Heiser. He said America spends \$9,000,000,000 for 130,000,000 tons of food every year "and yet we find that approximately three-quarters of our wage-earning families—like so many of the rest of us, I fear—pay so little attention to what constitutes good diet that they must be classified as 'ill-fed,' according to recommended standards of good nutrition."

He called for establishment of plant cafeterias, whenever possible, to make available to workers "attractive, varied and inexpensive dinners." He also recommended that attention be given to "improvement of the 'terrible greasy spoon' type of restaurants that exist near many factories, and suggested that workers' wives learn how to pack lunch boxes with "the lunch that packs a punch."

Groom, West Bristol.

### PRACTICE "ALERT" IS HELD IN BRISTOL TWP.

Mobilization of Civilian Defense Units is Fine Demonstration

SOME "EVACUATIONS"

Civilian Defense Units of Bristol Township were kept constantly on the move Sunday afternoon when "casualties," "bombing evacuations," and incendiary fires gave emergency units one of the best practice tests staged thus far in lower Bucks County. The mobilization was a "surprisingly grand and very successful demonstration of ability and organization," according to Colonel Churchill Williams, County Commander, and Earl D. Blair, County Chief Air Raid Warden, who witnessed the performance.

Beginning promptly at two o'clock in the afternoon, every unit of the civilian defense of Bristol Township went into action on a full scale. From the Neshaminy Creek in Croydon, to the Tullytown Borough line at Edgely, prearranged incidents were accounted for one by one by the alert and well-trained group of volunteers.

Fire companies throughout the area were kept on the jump and were taxed to their full ability. Emergency police located planted land mines and delayed action "bombs," while air raid wardens gave first aid to more than 100 casualties. Casualty and first aid stations were kept busy for a full two-hour period examining first aid work done by the warden and police groups.

In Newportville the newly-established information post was inaugurated and functioned perfectly. All calls came through the post and were recorded by clerks. The post is located in Newportville firehouse. Chief Warden George Erny and Chief of Emergency Police Walter Bowker reported splendid co-operation from their units and stated that all incidents had been dispatched with ease.

Edgely gave a like report stating that all wardens were on post, and police and first aid workers responded with enthusiasm.

A bit of realism was injected into the picture when an actual fire was reported in Newportville area. A field fire was located shortly after three o'clock. A call for help was made to the Croydon Information post which took fire trucks away from an imaginary fire at the Samuel Jackson's Sons plant and sent them to aid in extinguishing the real fire.

Croydon units were given many unique incidents which taxed the ingenuity of many of the workers. While fire trucks, ambulances and transportation units were busy evacuating, giving first aid and fighting fires in the Croydon Manor section, an explosion was heard and a report given that the Neshaminy Creek bridge had been bombed and two policemen thrown into the water. Because the roadway was completely blocked the drowning victims were moved by boat to the State road bridge where they were met by ambulance and treatment given with an inhalator. Flares which represented incendiary bombs were dropped throughout the area and kept wardens busy. The fire watchers' tower atop the V. P. W. Home reported sighting more than 50 fires throughout the test raid.

The new mounted messenger service proved to be a valuable aid in the Croydon area. These messengers worked in conjunction with the boys on bicycles.

Officials of the township and county were exultant over the splendid co-operation among the units. Colonel Williams stated that he would advise other sections of the county to attempt the same mobilization in order to promote better fellowship among the units and at the same time to give practice to the civilian defense workers.

## LATEST NEWS BULLETINS

### Rickenbacker in "Very Good Health"

New York—Capt. Edward V. (Eddie) Rickenbacker is in "very good health" and is being treated on a South Pacific Island—but the location is a "military secret" even from his wife.

"I tried to find out where he was with no success but I did find out how he was and that was most important," Mrs. Rickenbacker said today. "I was worried."

She has had no direct word from her husband since he was found by a Navy plane after spending 23 days aboard a rubber raft in the Pacific. Capt. Rickenbacker and his crew of seven were forced down when their plane ran out of gas.

### Fire Forces 22 to Flee in Night-Clothing

Easton—Twenty-two persons including nine children, were forced into the street in night clothing today when flames swept the four-story Washington Hall apartment house in Easton.

M. H. Young, 87, was carried to safety by firemen, while Louis Young, 19, leaped from his first floor bedroom. Origin of the blaze, which started in basement storage lockers, was not immediately determined.

### Mrs. Roosevelt Returns Home

Washington—Mrs. Franklin D. Roosevelt arrived this morning at a nearby airport and returned to Washington after spending nearly a month in England. President Roosevelt went to the airport to greet her upon her arrival and scheduled lunch with the First Lady to discuss her trip and conditions as she found them in England, the White House announced.

### Given The Purple Heart

London—Sergeant Edward Jones, of Donora, Pa., has been decorated with the Purple Heart for wounds he received in action. It was disclosed today at United States Army Air Force headquarters. The American flyer was wounded on October 2nd while at his post of tail gunner in a Flying Fortress when his plane was "somewhere over Europe."

## REPORTS 13 FIRST-AID CLASSES FUNCTIONING

Variety of Reports Heard at Monthly Meeting of Bristol Red Cross

PRODUCTION ACTIVITY

The monthly meeting of the Bristol Board of American Red Cross was held at local headquarters, 120 Mill street, yesterday at two p. m. The chairman, Mrs. William DuHamel, opened the meeting with prayer.

The minutes of October's session were read by the secretary, Mrs. Franklin Wallin. The treasurer's report followed, given by Mrs. E. Linton Martin.

The report of the new first aid chairman, John Burtonwood, informed that 13 classes are being conducted, four junior, eight standard and one advanced, and are being manned admirably. "In the past month," wrote Mr. Burtonwood, "63 persons have obtained standard cards; among them were six junior cards, with 11 having completed 10 hours for civilian defense."

An interesting letter from J. William Harris, of the Del Valle Army Air Base, Austin, Texas, expressed his regret at his severance of relations with the local board and mentioned the probability that he will be able to use his knowledge of first aid, to give instruction to the men of his squadron.

A letter from Miss Anne N. Lukens, chairman of A. R. C., Langhorne, was read. This concerned canteen work

## Rubber Footwear Exchange To Be Held at Hulmeville

HULMEVILLE, Nov. 17—A children's rubber exchange will be conducted at the November meeting of Hulmeville-Middletown Parent-Teacher Association, scheduled for Wednesday evening, in the school house.

Parents and others interested have been asked to take children's outgrown rubbers, galoshes, etc., plainly marked as to size, to the meeting where a room will be set aside for the exchange. Parents not able to complete exchanges at the meeting will be given receipts for rubbers, entitling them to participate in future exchange meetings, but no guarantees of satisfaction can be given. An outgrowth of the rubber shortage, this plan was first brought to public notice by the experiment said to be started at Radnor Township schools. The Hulmeville-Middletown PTA is believed to be the first to open such an exchange in Bucks County.

The rubber exchange will start at eight o'clock, just previous to the meeting.

As an encouragement to pupils of the various classes, PTA members whose children are no longer in attendance at the Hulmeville school will nevertheless be permitted to vote at this meeting for any class in which they may be interested. The attendance prize consists of a gift of money for the purchase of books (for supplementary reading) or athletic equipment.

The guest speaker will be Hugh J. Mooney, Trenton, N. J., a former U. S. parole officer, whose topic will be an outline of problems in treatment of crippled and delinquent children. The meeting will close at ten o'clock with refreshments served by the women's committee.

**WHAT OUR BOYS ARE DOING TO WIN THE WAR**

HARLINGEN ARMY GUNNERY SCHOOL, Texas, Nov. 17—A graduate this week of the Harlingen Army Gunnery School who qualified as an expert aerial triggerman after five weeks of intensive training and now wears the silver Wings of a Gunner Sergeant is Jack H. Randall, son of Mr. and Mrs. Fred W. Randall, 174 McKinley street.

He was promoted to sergeant and received his diploma at brief exercises held here and, unless held over to serve as an instructor, will depart immediately to join a combat crew aboard a bomber.

Now as an official crew member of the Army Air Forces' fighting combination, it will be his job to fight off enemy aircraft while other men in the bomber crew finish off the job of destroying enemy concentrations. To qualify as a top-notch man at flexible gunnery, he spent many hours in careful study and actual practice at aircraft identification, sight harmonization, machine gun nomenclature, and shooting every kind of weapon from BB to 50 caliber machine guns.

### WINTER DRIVING

For the coming winter months it will be well for automobile drivers to increase the caution with which they operate their vehicles tenfold. The reason for such a warning ought to be obvious.

On a great many tires the tread is approaching the vanishing point, in spite of slower driving and fewer trips. When the streets and roads are made slippery with slush and ice, well-worn tires will not hold the road. Skidding is apt to increase and accidents may be the result. This natural hazard can be largely eliminated if all motorists exercise greater-than-usual caution while driving during the winter months.

Whenever the pavement seems to be in a dangerously slippery condition all drivers should proceed with their vehicles under perfect control and with as little margin of safety left to chance as possible. Under this plan it will be sensible to anticipate the likelihood of a skid both on the part of one's own car and on the part of the car just ahead.

Motorists should also watch out for such danger spots as wet leaves, for these hazards provide a fine opportunity to skid, particularly if the tread is not all that it should be.

Sensible, alert driving should be the watchword for motorists in the months just ahead.

### A START BY THE OWI

The Office of War Information under Elmer Davis is putting into effect some decisions which serve to emphasize the shortage of sense that has existed in Washington.

Davis is making some progress in his campaign to provide the American people with as much correct, up-to-the-minute information on the war as is consistent with the obvious necessity of keeping military secrets secret.

The OWI is also making progress in other fields. It has just made important rulings curtailing "non-essential information activity" by government agencies—a long-needed move. The OWI has curtailed or eliminated 523 government publications and has ordered discontinuance of the practice of mailing press releases from Washington to news papers throughout the country. For ten years this has been an insult to newspaper editors, few of whom even read the output of these simple Washington press agents.

With a few exceptions news material will be released to local offices through field offices. Field offices will issue only material adapted to local interests. Distribution of full texts of statistical or technical reports is discontinued. Summaries of texts and speeches will be issued when the information merits it.

That last sentence is the crux of the matter. If it is found that the information seldom if ever merits it, good.

This seems to be a step in the right direction. It means that government news will be issued not on a better-skelter basis but under editorial control. This, of course, is not as ideal as the pre-New Deal method of permitting the newspapers to gather their own news. But it will mean a huge saving in paper alone over recent practices and it should pave the way for the release of a large number of government employees unnecessarily on the public pay roll.

If the Office of War Information continues on its present course, it can do much to run the New Deal press agents out of Washington and start them on the road to making an honest living.

# NEWS BRIEFS FROM SUBURBAN TOWNS

## HULMEVILLE

At a meeting of air raid wardens, held in the town hall last evening, Chief Warden John Egly, Jr., appointed the following as deputy wardens in their respective posts: Post 1, Mrs. Harold Daseburg; Post 2, Leo Scharlinger; Post 3, Miss Elma E. Haefner; Post 4, Mrs. Leon Conly and Mrs. Raymond Vornhold. It was stated that following a raid or raid test, wardens who have been on duty are to report to their deputy wardens, who in turn report those on duty to the officials at the town hall. Thus accurate records will be available as to those answering the alarms.

The alarm, Scoutmaster of Hulmeville Troop, presented to the gathering 19 members of the Boy Scout troop who will serve as messengers during raids or tests. Each Scout has a bicycle and a black-out light, and each will be assigned to a definite post. They will carry messages for wardens and emergency police. The next session for wardens is scheduled for Monday evening, November 20th, in the town hall.

Mrs. Edward Campbell and Mrs. Walter Hanns, formerly of Hulmeville, visited friends here yesterday.

The Hanns family and Mrs. Campbell, who has been residing at Little Rock, Ark., recently moved to Beverly, N. J. Edward Campbell, who has been employed in Bensalem Township, has joined his family in Beverly.

A coat of paint is being applied to Neshaminy Methodist Church.

## WEST BRISTOL

Those present: Mr. and Mrs. John Flannagan, Mr. and Mrs. Joseph Worley, Fergusonville; Mr. and Mrs. George Wurst, Newportville; Mr. and Mrs. Harry Castle and friend, Parkland. Mr. Foster received many gifts.

## CROYDON

Joseph Wunsch, A. S., of the U. S. Navy, Great Lakes, Ill., is home on a seven-day leave.

Miss Grace Brooks was a week-end visitor of Miss Mary Lineman.

Gerald Lamina is confined to his home with an attack of pneumonia.

Mrs. Lawrence Quigley and Mrs. James Scott were recent guests of their aunt, Mrs. William Fowler, New York. While there, they attended a farewell party in honor of their cousin, who had been inducted into service.

J. Robert Wolfe, of the U. S. Navy, who is stationed at Great Lakes Naval Training Station, Ill., is spending his leave at the home of his parents in Crofton.

## NEWPORTVILLE

The Cheerful Workers will hold a meeting on Wednesday evening at the home of Mrs. G. Emy.

Mr. and Mrs. Russell Shoemaker enjoyed a family reunion dinner on Sunday at the home of Mr. Shoemaker's sister, Mrs. Earl Bachman, Drexel Park.

Mrs. Estelle Shinn entertained her grandson, Howard Shinn, and his wife, on Sunday. Howard Shinn is a second class electrician's mate, and has been

in the Navy four years. He was on the Yorktown in the Battle of Midway and the Coral Sea, and was on the ship until it sank. He escaped injury. Mr. Shinn has left for Seattle, where he will be stationed.

## Tire Record Forms Now Available at Service Stations

Continued From Page One

The tire registration form calls for the manufacturer's numbers on the four tires in use and the spare tire. If these numbers are somewhat obliterated it is suggested that the owner rub a piece of chalk over them which will bring out the numbers so they can be read easily.

"Do not tear the form apart before reaching the registrars. Some people have sent in to the Rationing Board the top half of the form. This is wrong and they will be obliged to fill out another form," state board officials. When appearing before the registrars all owners must present their ownership cards and gasoline coupon books. After the form is approved by the registrar it will be torn in half and the lower part handed to the applicant. He must keep it in a safe place as he will be obliged to present it to an inspector when he has his tires inspected every two months.

Richardson and Shapcott  
Wedding Occurs Saturday

EDDINGTON, Nov. 17—The Eddington Presbyterian Church was the scene of a pretty fall wedding at four o'clock on Saturday afternoon, when Miss Irene F. Shapcott, daughter of Mr. and Mrs. James G. Shapcott, Sr., was united in marriage to Mr. Joseph Richardson, son of Mr. and Mrs. James Richardson, Sr., of Bristol. The Rev. Arthur D. Sargis, pastor, officiated.

The bride, who was given in marriage by her father, wore a gown of white brocaded satin and lace, fashioned on princess lines with long tapering sleeves forming points over the hands. Her fingertip veil was lace-trimmed and fell from a tiara-shaped headpiece of seed pearls. She carried a shower bouquet of white roses and bouvardia.

Mrs. John Wilkins served as matron of honor for her sister. She wore a gown of soft blue satin, trimmed with lace; and a face veil of the same color. She carried a bouquet of pink roses.

Mr. John Wilkins was groomsmen. The bride's mother wore a blue costume with black accessories, and wore a corsage of pink chrysanthemums.

The groom's mother was dressed in aqua with matching accessories, and wore a corsage of yellow chrysanthemums.

A reception followed the ceremony at the Penguin Flyer, Andalusia, for the immediate families.

Mr. and Mrs. Richardson left for a week's honeymoon in New York. For traveling the bride chose a Kelly green dress with hat to match, black coat and black accessories. She wore a corsage of bronze pom-pom chrysanthemums. The Richardsons will be at home in their newly-furnished apartment in Cornwells Heights upon their return from New York.

## Today's Quiet Moment

(By the Rev. James R. Galley)  
Pastor, Bristol Presbyterian Church

Almighty and All Merciful God, who dost grant unto thy faithful people the grace to make every path of life temporal the straight and narrow path which leadeth unto life eternal, grant unto us the wisdom of thy way, that we might see and understand the blessed assurance which can be ours through thy Son Jesus Christ. Point to us the way, and give to us the strength to walk therein. Sustain us in trial and disappointment, and keep us from losing courage; through Jesus Christ our Lord. Amen.

Axed by the edict was a scene in which Hall, playing the name role as a U. S. operative who invades Berlin, planted his size 11 brogue in the seat of Hitler's pants, during the course of his spying. The scene of the picture was calculated to mark up a highspot in comedy-drama in the film which, as a whole, is contrived to make a revealing expose of Axis operations and intrigue in the Nazi capital.

## BRISTOL THEATRE

In finishing up his last dance in Irving Berlin's "Holiday Inn," the new highly-praised musical at the Bristol Theatre, Fred Astaire wore out a new pair of shoes that cost him nothing.

For years he has been getting his footwear made up at one little shop, and the hundredth pair is always "on the house." Whenever he gets a pair gratis, he knows he's busted another hundred. "Holiday Inn," in which he does eight terrific dance routines, brings his score up to 600 pairs, which is certainly a boon to shoe manufacturers.

## RITZ THEATRE

Toby Wing was named after a horse—or, rather, she was nicknamed, for Toby is not her true name.

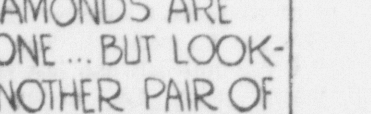

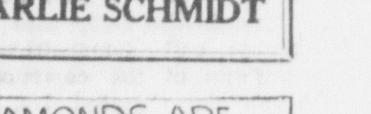

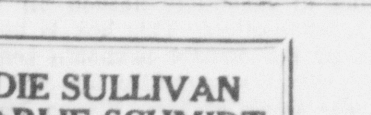

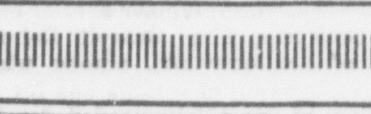

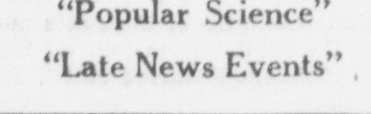

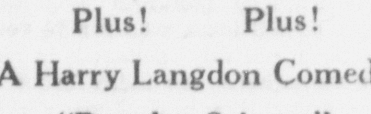

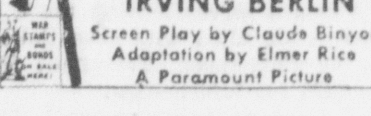

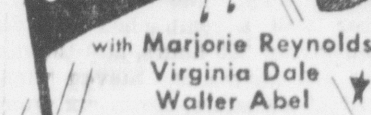

The young actress comes to the Ritz Theatre today in "Flight On, Marines," stirring picture of Uncle Sam's "leathernecks," in which she is featured with Wallace Ford and Grant Withers.

## BRISTOL HIGH SOPHOMORES TIE BENSALEM

Touchdown in Last Few Minutes of Play Enables Owls To Deadlock Score

FINAL SCORE IS 7 TO 7

Bristol's Score Was Made In Third Quarter of Game

CORNWELLS HEIGHTS, Nov. 17—The Bristol High School Sophomores tied the Bensalem Junior Varsity, 7-7, yesterday afternoon on the Bensalem gridiron.

A touchdown in the last few moments of the game enabled the Owls to tie the score after Bristol had outplayed them most of the game and had the ball in the Bensalem territory most of the game.

Bristol's score came in the third quarter and was the result of Bigelow intercepting a forward pass and racing to the two-yard line where he was downed. It was a 25 yard gain for Bigelow. After a line play failed to net any gain, Bigelow got the ball from center and reversed to Aker who shot a short pass over the line to Gross for the touchdown. Collins place-kicked the extra point for the Bristol 7-0 lead.

A long pass, Hansen to Foster, which was completed for a fifty-yard gain and a touchdown put Bensalem back into the game in the waning moments of the game. Johnny Dean scored the extra point when he faked a kick and rushed the ball through the line.

The Sophomores had the ball in scoring position twice in the second quarter of the game, reaching within five yards of the Bensalem goal each time only to have the Owls hold for downs.

Charles Utz's boys also passed up an opportunity in the first period when they received possession of the ball on the Wetherhold 45 yard line but on the first play two Bristol backs fumbled to give Bensalem possession of the ball and boot it deep into Bristol territory. The Bristol boys then worked it up the entire field to the three yard line only to lose it.

The kicking of "Mary" Collins was outstanding in the game. His long boots placed Bensalem in the hole time and time again, especially when he would kick out of bounds and not give the Bensalem backs a chance to run back the ball.

tober were as follows: (included in the above) active service, 14; ex-service veterans, 2; civilian, 5; making a total of 21 families. Cases closed during October were 19. Various work to be considered in the near future was discussed. A letter from Wm. Carl Hunt, manager of the eastern area, was read by Miss Landreth concerning the safeguarding of military information. "This is of the utmost importance to our boys and we must agree to keep all information which we may know entirely to ourselves." It was announced. A donation of \$50 worth of canned goods, etc., was received from the Supplee Milk Company and appreciation expressed of the splendid gift. Mrs. Lehman, chairman of A. R. C. of Shippensburg, was present. She told of her work for Red Cross and of some of the things accomplished there.

and has occupied the airfield at Martuba.

The heaviest single day's loss in weeks for the German forces at Stalingrad was reported by a Soviet communiqué. Dead and wounded in a day's fruitless fighting totalled 1,500, and another 1,500 enemy casualties were reported in renewed fighting around Volkhov, southeast of Leningrad. On all other sectors of the Volga-Caucasus front the Russians maintained the initiative.

The Japanese attempts to retake the Solomon bases have so far cost them 35 ships sunk, 5 probably sunk and 71 damaged. During the same period American losses were 24 vessels sunk. In the latest clash the enemy lost a battleship, three heavy cruisers, two light cruisers, five destroyers and eight transports sunk. Four other transport-cargo ships were beached on Guadalcanal and were later destroyed by American fire.

In addition an enemy battleship and six cruisers were damaged, and it was believed the Japanese lost at least 30,000 men.

American losses of two cruisers and six destroyers were not believed to have involved heavy loss of personnel, as the ships went down near shore and a large proportion of the men were believed to have been saved.

take the place of factory doctors called into military service also was urged by Dr. Heiser.

Calling on management, labor, government and medicine all to get together in working out a "Prescription for Production," Dr. Heiser said:

"One of the great miracles on the production side has been the feat per-

formed by the machine tool industry in duplicating its production capacity in two and one-half years. But all the machines in the world are useless unless we have healthy workers to keep them running.

"If we were to do a job in improving the health and efficiency of our industrial manpower comparable to the job we have done and are doing in increasing the production capacity of our machines, we could deal the Axis a blow that would send them reeling. A full house still beats three of a kind—in poker and in the battle of production."

## SUPPLEE

### Model American Diets Feature Milk

To build health and citizen stamina, leading nutritionists have created simple, easy diets to be followed in every home. Notice particularly that milk is No. 1 on every one—at least a pint daily for every adult—a quart for each child. Milk can't do the whole job by any means, but it's No. 1 on any adequate diet.\*

\*One pint of milk supplies an adult's daily requirements of the following food elements in approximately the proportions shown: Calcium, 7/10 of all required; Vitamin A, 1/5; Vitamin B1, 1/7; Vitamin B2, 2/5; Protein, 1/4; Niacin, 1/7; Iron, 1/12; Calories, 1/9.
